

THE UNITED STATES BANKRUPTCY COURT SOUTHERN DISTRICT OF MISSISSIPPI

COMPUTER DIAL-IN PUBLIC ACCESS

NEW DIAL-IN SERVICE

In our continuing efforts to be responsive to your needs, we have developed a dial-in service which allows you to retrieve electronic case summaries and docket information using your computer. Access to an electronic history of a case of interest can be achieved without having to leave your office. This service is offered on a 24-hour basis.

SEARCHING

You can search for a case by participant name, social security number, bankruptcy case number or adversary case number. When you find the case you want, your own printer can be used to print case and docket information.

TRACKING

If you are tracking the progress of a case, the system (which is current through the previous day) allows you to quickly check for updates. This means that you can get the latest docket entries and case information when an event happens; if there have been no updates, confirmation can be achieved in seconds.

AVAILABILITY

The system is available days, nights, and weekends. All active and closed cases since 1986 are available. Docket entries are available for cases filed since January, 1994.

WHAT YOU NEED

- A personal computer (Intel 486 or higher)
- A 9600 baud modem or higher
- PcAnywhere 5 for DOS or PCAnywhere 8 for Windows or higher

COST

The cost for the service is \$.60 a minute and access will be billed on a quarterly basis.
